

WAGO Marking

Edition 2023/2024

WAGO Full Line Catalogs

WAGO Rail-Mount Terminal Blocks and Connectors

- Rail-Mount Terminal Blocks
- Rail-Mount Terminal Blocks with Pluggable Connector (X-COM®-SYSTEM)
- Patchboard Systems
- Terminal Strips
- PUSH WIRE® Connectors for Junction Boxes
- Lighting Connectors
- Shield Connecting System

WAGO PCB Terminal Blocks and Connectors

- PCB Terminal Blocks
- THR/SMD PCB Terminal Blocks
- *MULTI CONNECTION SYSTEM (MCS)*
- Pluggable PCB Terminal Blocks
- Feedthrough Terminal Blocks
- Specialty Connectors
- Empty Housings

WAGO Pluggable Connection System WINSTA®

- Pluggable Connectors
- Snap-In Device Connectors
- Pluggable PCB Connectors
- Distribution Connectors
- Cable Assemblies
- Flat Cable Systems
- Distribution Boxes

WAGO Automation Technology

- Solutions & Software
- Operating & Monitoring
- Controllers, Edge Devices
- Modular I/O-SYSTEM IP20, I/O-SYSTEM IP67
- Industrial Switches
- Radio Technology
- IP67 Sensor/Actuator Boxes, IP67 Cables and Connectors

WAGO Interface Electronics

- Relay and Optocoupler Modules
- Signal Conditioners and Isolation Amplifiers
- Current and Energy Measurement Technology
- Power Supplies
- Interface Modules and System Wiring
- Overvoltage Protection
- Empty Housings

WAGO Power Supplies

- Power Supplies
- DC/DC Converters
- Circuit Protection
- UPS-Charger and Capacitive Buffer Modules
- Redundancy Moduls
- Current and Energy Measurement Technology
- Overvoltage Protection

WAGO Marking

- Printer
- Software
- Terminal Block Marking
- Cable and Conductor Marking
- Device Marking
- Marker Carriers

Marking with Smart Printer

Terminal Block Marking

- Multi-line marking strips for clear, detailed control cabinet labels
- WMB Inline markers on a reel are suitable for various terminal block sizes
- Same profile across all TOPJOB® S Rail-Mount Terminal Blocks ensures quick labeling

Cable and Conductor Marking

- Different versions available: marking sleeves, self-laminating labels, conductor markers for thread-on mounting or shrink tubes
- Large variety of marking surface sizes

Device Marking

- Broad selection of labels, type plates, fabric labels and type plates optimizes marking for devices and control cabinets
- Marking materials are available in a variety of colors and sizes

**Your Benefits:**

- Long-lasting, indelible, scratch-proof printing
- Lower purchase costs thanks to economical marking
- Save time on printing and affixing markings
- Universal application for all control cabinet marking tasks
- Easy installation

Thermal Transfer Printer Smart Printer Installation

1

Printer – open

Accessories for unwinding material

Open the printer.

Insert the ink ribbon.

Prepare the marking material.

Printing 2009-110 Marking Strips on TOPJOB® S Rail-Mount Terminal Blocks with Smart Printer

Insert and secure the appropriate roller into the printer.

Printer has several interfaces:
USB, ETHERNET, serial COM port

Fast, cost-effective and easy to use –
printing WMB Inline markers via Smart Printer

Printing with the Thermal Transfer Smart Printer

1

Direct Printing from a CAE System

With the perfect EPLAN interfaces, both terminal block markings and marking accessories for electrical equipment and conductors can be conveniently generated directly from a CAE system. Direct connection to the Thermal Transfer Smart Printer accelerates the manufacturing process.

Generate Marking Data from the Configuration Software

Save time and reduce your costs by printing markings directly from WAGO's Smart Designer Configuration Software on the economical Thermal Transfer Smart Printer. Configured terminal strips can be printed with just a few mouse clicks.

WAGO Marking Software Smart Script

With its intuitive operation, this clearly structured marking software is suitable for all WAGO markers. Eliminate duplicated effort and simply export data from Excel or CAE systems for marking your terminal strips.

Marking devices

Printer model: Smart Printer ▶ Marking method: Thermal transfer

1

Connection data	
Interfaces	USB, RS-232, ETHERNET 10/100 Mbps
System requirements	
Supported operating systems	Windows 7; Windows 8; Windows 10
Memory	4 GB
Technical data	
Marking method	Thermal transfer
Operating voltage	100 ... 240 VAC, 50 ... 60 Hz (automatic adjustment)
Print resolution	300 dpi (12 pixels/mm)
Print speed	max. 127 mm/s (WAGO recommends 50.8 mm/s)
Print width (max.)	47 mm
Print length (max.)	762 mm
Print head	Glass layer, spring-mounted
See-through/reflective sensor	yes, centrally fixed
Memory	8 MB
Operating display	Color TFT LCD with navigation button
Safety approvals	CE (EMC)
Ink ribbon	Reel outside diameter: 40 mm; core inside diameter 12.7 mm (0.5 inch); max. length 110 m; max. width 58 mm
Mechanical Data	
Dimensions W x H x D	(135 x 175 x 245) mm
Environmental requirements	
Ambient temperature (operation)	+5 ... +40 °C
Surrounding air temperature (storage)	-20 ... +50 °C

Marking devices

Printer model: Smart Printer ▶ Marking method: Thermal transfer

Scope of delivery: Power supply + cable, 2 x roller (258-5006 + 258-5007), 1 x roll holder, 1 x ink ribbon (258-5005), Smart Script marking software and driver, USB cable, external unwinder, 2 x empty cardboard roller core, 1 x roll of marking strips (2009-110) and WMB Inline markers (2009-115) each

Scope of delivery: Power supply + cable, 2 rollers (258-5006 + 258-5007), 1 roll holder, 1 ink ribbon (258-5005), Smart Script marking software and driver, USB cable, external unwinder, 2 empty cardboard roller cores

Accessories for marking devices

Cutter

258-5030

Dimensions W x H x D: (60 x 107 x 131) mm

Color	Item no.	PU
○	258-5030	1

Hardware requirements:

- Printer model: Smart Printer
- From manufacturing month/year: 0814 – August 2014
- Firmware version: 1.UW7i
- Printer driver: Version 7.4.2

Software requirements:

- Smart Script: Version 4.2 or higher
- WAGO printer settings: Version 2.4.0.0 or higher

Approved print material to be cut:

- Marking Strips: 2009-110, 709-177, 709-178, 757-901/000-005
- Self-Adhesive Marking Strips: 210-702, 210-870 ... -882/000-002
- Cable Tie Markers: 211-835 ... -836, 211-836/000-002
- Self-Laminating Labels: 211-855 ... -857
- Wire Markers for Thread-On Mounting: 211-861 ... -863
- Type Labels: 210-801 ... -804, 210-812
- Continuous Labels: 210-831 ... -834
- Label for Circuit Identification: 210-813

Dimensions of printing materials:

- Width (max.): 46 mm
- Thickness (max.): 250 µm

Accessories for marking devices

Thermal transfer ink ribbon

for all WAGO marking accessories (except 211-855, 211-856, 211-857)

only for 211-855/-856/-857

258-5005

Length: 74 m		
Color	Item no.	PU
● black	258-5005	1

	WAGO Configuration Software Smart Designer 25

Digital Engineering with WAGO

Overview

The cornerstone of each switchgear unit is not just the products used themselves, but also individualized electrical planning. To make your planning as smooth as possible from start to finish, WAGO offers you complete data, software tools and interfaces. Based on standards like eCI@ss (basic/advanced) or ETIM, the technical and commercial item data – available as product data for CAE or CAD – is machine-readable and fully compatible with your system. From electrical and mechanical planning to delivery, you save time and money every step of the way.

2

CAD

WAGO offers a large number of CAD formats for the configuring your design. Use your usual CAD tool to import your configuration from WAGO Configuration Software Smart Designer.

Documentation

Save time and avoid errors in the configuration of control cabinet documentation – automatically from WAGO Configuration Software Smart Designer. You will benefit from having all the relevant product and process data necessary for standards-compliant documentation.

Marking

Marking control cabinets is easy with the WAGO Thermal Transfer Smart Printer. Depending on how you work, you have the option of printing markings from different systems.

CAE

Use your preferred CAE tool for electrical planning – WAGO offers interfaces to various CAE tools (e.g., EPLAN, E³, WSCAD, ZUKEN).

WAGO Configurator

Whether in the plausibility check for the structure of the terminal strips or documentation for the control cabinet: Generate complete parts lists – directly via the WAGO Configurator or with suitable interfaces to your higher-level engineering tool.

Delivery

Get completely assembled rails or individual products: WAGO provides the selected components as needed.

Digital Engineering with WAGO

Familiar Planning in the CAE Tool

2

Use your familiar CAE tool for designing circuit diagrams. WAGO offers you high-quality CAE product data and CAE macros. Interfaces to a number of CAE tools (e.g., EPLAN, WSCAD, etc.) permit automatic construction of planned terminal strips in the WAGO Configurator configuration software.

Your Benefits:

- Use your preferred CAE tool – WAGO offers interfaces to various systems.
- Instead of entering item numbers, use the bidirectional interface to plan faster with function definitions.
- Pass the circuit diagrams to the WAGO Configurator, construct terminal strips automatically and save a great deal of time.
- Plausibility checks in the WAGO Configurator help you avoid errors in your planning. Any missing components, such as an end and intermediate plate, are added automatically.
- Automatic transfer of the printing data from the CAE tool to the thermal transfer Smart Printer minimizes time and errors.
- The simple, clearly arranged selection of marking media and automatic adjustment of the font size to the corresponding marking field help you achieve precise component marking.

Digital Engineering with WAGO

Configuration of Individual Products

With WAGO Configurator Smart Designer, the software for WAGO's electrical interconnection and automation products, we offer project access anytime and from anywhere in the world – no installation necessary.

Your Benefits:

- Easy cooperation on a configuration project, even at different development sites
- Save time and avoid errors with location-independent project processing, without different processing statuses, data exchange via email etc.
- Get your bearings quickly and save time with a selection of pre-defined standard views.
- Item numbers always up-to-date
- Plausibility checks prevent planning errors.
- Insert user-specific products as placeholders.

CAD Configuration

Use your usual CAD tool to import your configuration from the WAGO Configurator. This is possible without exception thanks to the availability of various CAD formats (neutral and native 2D/3D CAD formats). Technical and commercial item information is available to you with high-quality data. You determine the product data granularity yourself.

Digital Engineering with WAGO Parts Lists and Assembly Diagrams

2

Export parts lists and assembly diagrams directly from WAGO Configurator Smart Designer to create production documents or support ordering. You benefit from the automatic import of item numbers for individual components into your ERP system and from complete, standards-compliant PDF documentation (e.g., per FSF standard for track and rail vehicles).

WAGO Marking Software Smart Script Intuitive Marking Software

With its intuitive operation, this clearly structured marking software is suitable for all WAGO markers. Eliminate duplicated effort and simply export data from Excel or CAE systems for marking your terminal strips.

Combining superior usability with a modern design, Smart Script helps the user complete the task quickly and easily with just a few clicks. For example, Smart Script can be used to easily customize type labels, as well as define and print barcodes and graphic elements.

- Modern design and intuitive workflow
- Fast and easy use thanks to an integrated printer driver and printer settings
- A large selection of different marking media, including templates
- Optimized data interfaces to WAGO Configurator Smart Designer, EPLAN P8, Microsoft Excel, CSV

2

WAGO Configuration Software Smart Designer Smart Designer in HTML5

Updated to HTML5, WAGO's Smart Designer Configuration Software comes with a new design and additional features.

The new software offers a modern and intuitive user interface for maximum usability. In addition, there is better support for mobile devices, expanding the scope of applications and allowing the software to be used at any time and from anywhere. With this future-ready Web application standard, WAGO offers a tool that perfectly supports the engineering process.

All familiar tried and tested functions of the previous Smart Designer version have been retained. The updated tool allows projects from different CAE planning tools to be imported via an interface and a plausibility check to be performed, for example. Based on WAGO's expertise, a check is performed of whether the configured structure is possible and, for rail-mount terminal blocks, the correct jumpers are placed according to the planning. Alternatively, a combination of rail-mount terminal blocks or a custom connector can be created directly in the software, and an offer can be requested with a click.

- Future-ready Web application standard
- Modern, intuitive user interface
- Better support for mobile devices
- All familiar functions retained

Cable and Conductor Markers Description and Installation

Remove the marker printed with Smart Printer from the roll.

Slide the marker into the marking sleeve receptacle. Exchanging the marker is also possible after the conductor has been terminated.

Compress the sleeve and slide it onto the conductor to be marked.

3

Suitable markers are supplied on a reel for insertion into Smart Printer.

Cable Tie Markers

Smart Printer, for printing markers and much more.

Smart Script, for marking markers and much more.

Cable and Conductor Markers Description and Installation

Slide the marker through the marker slot up to the end of the sleeve.

Then remove the rest of the card by twisting it off.

Attach the marking sleeve (211-829) to individual cables or conductors via cable ties.

Wire markers for thread-on mounting, for wire cross section 0.75 ... 6 mm²

Conductor marker for thread-on mounting

Remove the printed label from the sheet or reel.

Wrap the label around the conductor or cable.

The transparent laminate protects the marking.

WAGO Marker Carriers for WAGO Marking Accessories

Description and Installation

Height-adjustable group marker carrier (2009-163); suitable for WMB markers or marking strips (2009-110)

Can be snapped into jumper slots.

Group Marker Carriers

Group Marker Carriers

Marker carrier for marking strips (2009-110) or 2 WMB markers for 285-13x, 285-15x and 285-19x Terminal Blocks

This laterally movable marking system can be used as an additional group marker carrier or continuous marking strip carrier for terminal strips or single-deck rail-mount terminal blocks, e.g., for:

- DIN-35 rail-mount terminal strips (264 Series)
- Single-deck rail-mount terminal blocks (279 to 284 Series) with a maximum height of 49 mm (1.93 inch) from upper-edge of DIN-rail (observe conductor radius)

Group marker carrier (2009-163) for marking strips (2009-110)

Terminal block marking with double marker carriers (209-128)
Terminal blocks with side marking
(see online catalog at www.wago.com)

Marker carriers for marking strips (2009-110) or WMB-Inline (2009-115)

Using marker carriers for marking strips (2002-161) in jumper slots.

Using marker carriers for marking strips (2009-198) in lateral marker slots.

Group marker carriers (209-141 and 209-112)

This pivoting group marker carrier has been developed for group marking of rail-mount terminal blocks and incorporates many customer requirements:

- Can be used in all multiprofile marker slots for rail-mount terminal blocks 5 mm (0.197 inch) and above or in spacer housings as shown above.
- Pivotal to seven different stable positions, providing the best visual angle in case of difficult mounting conditions
- Two levels for different marking systems
 Level a: for marker (4 x 34) mm (see above)
 Level b: for 12 WCB-Combi markers (see www.wagocatalog.com)

PU = packaging unit; SPU = subpackaging unit

Group marker carrier

for 2- and 3-conductor terminal blocks (282 Series) ▶ straight

Additional group marking

This group marker carrier (209-144) makes it possible to mark subgroups in confined places. They can be snapped into unused jumper contact slots of the terminal block housing. Marking is performed with the WAGO WMB Multi Marking System.

Group marker carriers (209-141 and 209-112)

Group marking on N-busbar carrier used as an end stop

Success for Generations: Environmental Protection at WAGO

At WAGO, we see environmental protection not only as compliance with environmental protection requirements.

As a growing company, our commitment to the environment drives our efforts to deliver new ideas, new concepts and new technologies along the product lifecycle. Here our employees and business partners support us.

Corporate Environmental Protection

Business growth also leads to higher consumption of resources. We have realized that the economic success of a company also depends on the achievement of environmental goals.

As a manufacturing company, we therefore support developments that make a contribution to environmental protection. In doing so, we always pursue individual material flows along the value chain, because we see resources, product design, production and consumption as a whole.

With our environmental management system certified in accordance with DIN EN ISO 14001, we ensure that the required national and international requirements are complied with in all areas of the company and that the concept of environmental protection is practiced in all corporate processes. In addition, WAGO is pursuing further efforts in the field of environmental protection that go far beyond the requirements of ISO.

Some examples include the recycling of plastics, resource savings on product and packaging materials, the use of recycled paper throughout the company, the introduction of e-filling stations and the use of waste heat from production processes.

Product-Related Environmental Protection

Product-related environmental protection is an important part of sustainable environmental management at WAGO. Ensuring compliance with substance bans / restrictions worldwide, such as: As REACH, RoHS has a high priority.

RoHS – Restriction of the Use of Certain Hazardous Substances

It is an EC directive that regulates the use of certain hazardous substances in electrical and electronic equipment. In addition to reducing the harmful effects on humans and the environment, legislation aims to improve recycling possibilities. WAGO closely monitors the development regarding RoHS and reacts promptly to specifications accordingly. For more information about RoHS please contact us via ehs-product-compliance@wago.com.

RoHS 
Compliant

Success for Generations: Environmental Protection at WAGO

REACH – Registration, Evaluation and Authorisation of Chemicals

On 01.06.2007 the regulation (EC) no. 1907/2006 (REACH regulation) came into force and since then forms a valid legal basis for all EU member states. To protect human health and the environment, this EU Chemicals Regulation aims to classify and identify all chemicals, including their effects.

The REACH Regulation creates specific obligations for each actor in the supply chain. The products manufactured by WAGO are to be designated as products in the sense of the regulation. Since products are not subject to registration, WAGO usually assumes the role of the downstream user in the supply chain. WAGO therefore has an obligation to provide information along the supply chain in accordance with REACH Article 33. WAGO is naturally aware of this obligation.

BOMcheck.net

For more information about our reporting requirements according to REACH Article 33 please visit our website "REACH SVHC Declaration" via www.wago.com/svhc

BOMcheck

European legislation such as REACH or RoHS requires the provision of information on restricted ingredients in products. This information must be shared by manufacturers and suppliers in the supply chain. WAGO meets this challenge in product-related environmental protection successfully and efficiently with BOMcheck.

BOMcheck is a centralized database for the declaration of ingredients. It is a compliance tool specifically designed to enable manufacturers and suppliers to produce their substance declarations under REACH, RoHS, and other restrictions on ingredients in an efficient and structured manner. This Internet database system increases data quality in the area of product-related environmental protection.

Further information on BOMcheck can be found at the following link: <http://www.bomcheck.net>

WEEE – Waste of Electrical and Electronic Equipment

The WEEE Directive 2012/19/EU regulates the take-back and recycling of electrical and electronic equipment. Manufacturers and importers of electrical and electronic equipment are obliged to register as a 'WEEE producer' and to comply with the reporting and take-back obligations. As a matter of course, we have taken compliance with legal WEEE requirements very seriously all the time - in our own interest as well as in the well-understood interest of our customers.

Only some of our products fall within the scope of the WEEE Directive and the Member State's implementation laws. These products are WEEE-compliant marked by us, as far as such a marking is legally required (which is not required for the B2B area Europe-wide).

For more information about WEEE please contact us via ehs-product-compliance@wago.com.

Less is More: Our Packaging

Recycling is the basis for choosing our packaging materials. All packaging used by WAGO can be recycled in the economic cycle without further pretreatment. In addition to the aspect of recycling, emphasis is placed on resource conservation. For this reason, our cardboard boxes consist of 80% recycled paper and are marked with the Resy symbol. The Resy symbol guarantees compliance with the Packaging Ordinance for transport packaging. The labeling is partly done by perforation. This process enables the colorless printing of WAGO cardboard boxes. This avoids unnecessary environmental pollution.
